

ADA-5832M

5GHz MIMO Dish Antenna 32dBi

H-Plane

E-Plane

Applications

- 5GHz ISM and UNII Band Application
- 802.11n MIMO and WiMax Application
- Long-Range Direction Applications
 - Point to Point
 - Point to Multi-Point
 - Backhaul / Client Antenna

Features

- Dual Polarity feed
- Aluminum Reflector Dish
- UV stable light gray polymer finish
- All Weather Operation
- Includes tilt and swivel mast mount kit

Specifications

Model	ADA-5832M
Frequency Range	4750~5850MHz
Polarization	Vertical & Horizontal
Gain	32dBi
VSWR	≤ 2
Horizontal Beamwidth	3.5°
Vertical Beamwidth	3.5°
Impedance	50Ω
Maximum Input Power	100W
Connector	N Female
Dish Diameter	35.4 inch
Weight	12 kg
Mounting Mast Size	1.6 ~ 3.0 inch
